EXPERIENCE

QuaverED, Nashville, TN

— Team Lead of Integrations Development

MAY 2022 - PRESENT

Team Lead of Integrations Development under C# Back-End Supervisor:

- All of the responsibilities from below as a Back-End Developer
- Adsf
- Asfd
- Asdf

— Back-End Developer

JUNE 2021 - MAY 2022

Back-End Developer working alongside the Team Lead of Integrations:

- All of the responsibilities from below as Developer Assistant
- Supported the new Integrations Lead and took over many Lead responsibilities due to a switch in leads.
- Wrote technical documentation and Functional Requirement Documents for upcoming and existing projects.
- Lead a project allowing users to auto-provision an SSO account to our user accounts, working with both multiple dev teams and with a district client who requested the feature.

— Developer Assistant

OCTOBER 2020 - JUNE 2021

Developer Assistant under the Team Lead of Integrations Development:

- Continual development of SSO and Rostering systems for both the back-end and front-end sides of our product.
- Reviewed nightly Roster Syncs and resolved sync errors either in our Roster Processor code base or in the district's data.
- Collaborated with various front-end teams to provide back-end support such as supporting legacy and creating new API endpoints for our client data site Quaver Data Exchange.
- Developed a programmatic export of our resources into the Thin Common Cartridge format.
- Wrote complex MySQL data queries and implemented the data into C# data objects to be used in API endpoints.
- IIS Server Operation Handling and prepping Blue/Greens for site pushes.

EDUCATION

University of Central Florida

Major: Interdisciplinary Studies

Minors: Computer Science & Digital Media

PROJECTS

Soveriegn_Geese

Initial setup of a project I started with a friend to access MySQL workbench server.
<https://github.com/Snakiestgoose/SovereignGeese>

Game Jams

Indie Galactic Space Jam 2019

I was the second game programmer at this game jam where I wrote in C++ in the Unreal Engine for the first time.

Global Game Jam 2020

I did this game jam on my own and created a typing game where the player types words as they progressively fall faster down the screen.
